The display will automatically exit the parameter setting state when there is no operation for 10 seconds. Press POWER button when password adjustment is completed. Display will return to the Voltage set item if the password is incorrect. Different assembly methods will need different cable length. Clamps suit for 3 size of handlebar diameter, 31.8mm, 25.4mm, 22.2mm, there are different transfer rings for 25.4mm and 22.2mm, transfer ring must assembly in right direction, see the figure below, pay attention to the green arrow position. Don't insert sharp object into the hole, it will cause waterproof failure. For a better experience, please enable JavaScript in your browser before proceeding. It may not display this or other websites correctly. You should upgrade or use an alternative browser. This display is not removable, but it does swivel to reduce glare. It does not have a USB port to charge portable electronic devices.

The remote button pad is extremely easy to reach and very responsive to presses but the plastic button covers can get snagged on jackets, long sleeve shirts, and gloves. This display may be found on purpose built ebikes as well as conversion kits. There is no range estimate menu, so accurately judging distance may require practice. Quick tips. It does everything I need and is compact. My only complaint is I wish the cable between the buttons and the display was a little longer. It fits my bike ok, but beware if you have wide handlebars. My only complaint is that I wish the button interface had a longer cord. It does what it is supposed to do. Two issues 1. Plug it in very carefully, in good light, to make sure the very delicate pins are lined up or they will bend. The watt meter does not matter on the BBSHD because only goes to 999 watts but the 5 button mouse pad of the C965 makes resetting the mileage much easier. El Segundo, CA 90245 United States An email will be sent to the address below containing a link to verify your email address. I have a C965A LCD Display. It has 3 levels of assist. There are no instructions in the manual that describe how to set the number of levels. Can anyone help me with this. Thank you in advance. Jim I have a C965A LCD Display. It has 3 levels of assist. There are no instructions in the manual that describe how to set the number of levels. Can anyone help me with this. Thank you in advance. Jim Go into the Password protected part on the display and as you scroll through the PAS options will come up after the Speed Limit set. There is no screen for setting the number of PAS levels. If anyone has any personal experience dealing with this issue, I would appreciate a response. Please don't contribute if you don't have actual experience. Thank you. Go to the password protected screen and enter the password. You will then scroll through the wheel size and speed limit screens and then come to the PAS screen.

At least this is how my C965 is laid out and how I changed mine to 9 PAS levels. For some reason, it is not shown in the manual but it is there. I purchased mine in November. It worked! I was confused by the display contents on the bottom line some alphabetic code . Vaya con Dios. jmw But where is the used watts indicator. My brother has the 5 button one together with newer BBS01 engines and there you can see real usage There is no PAS level indication in the setup menu. Strange. The C965 with 5 buttons is exactly the same version, v4, as my 3 button one. The 3 button one has no Usage indicator also but has the PAS level setting. Very inconsequent version labelling. That sounds really strange. What version you have C965 or C965A. It also seems C965 is able to display actual voltage.

Thanks. That sounds really strange. What version you have C965 or C965A. It also seems C965 is able to display actual voltage. Thanks. Yes, it is strange. They both say model C965 and version 4 Both have no voltage display you can choose the battery voltage level in the setup menu on the 5 button 1, only power display on the 5 button 1. This page informs you of our policies regarding the collection, use and disclosure of personal data when you use our Service and the choices you have associated with that data. We use your data to provide and improve the Service. By using the Service, you agree to the collection and use of information in accordance with this policy. Unless otherwise defined in this Privacy Policy, the terms used in this Privacy Policy have the same meanings as in our Terms and Conditions, accessible from.

Definitions Service is the website operated by California Ebike, LLC Personal Data means data about a living individual who can be identified from those data or from those and other information either in our possession or likely to come into our possession. Usage Data is data collected automatically either generated by the use of the Service or from the Service infrastructure itself for example, the duration of a page visit. Cookies are small files stored on your device computer or mobile device. Data Controller means the natural or legal person who either alone or jointly or in common with other persons determines the purposes for which and the manner in which any personal information are, or are to be, processed. For the purpose of this Privacy Policy, we are a Data Controller of your Personal Data. Data Processor or Service Provider means any natural or legal person who processes the data on behalf of the Data Controller. We may use the services of various Service Providers in order to process your data more effectively. Data Subject is any living individual who is using our Service and is the subject of Personal Data. **Information Collection and Use.** We collect several different types of information for various purposes to provide and improve our Service to you. **Types of Data Collected.** Personal Data. Personally identifiable information may include, but is not limited to We may use your Personal Data to contact you with newsletters, marketing or promotional materials and other information that may be of interest to you. You may opt out of receiving any, or all, of these communications from us by following the unsubscribe link or the instructions provided in any email we send. Usage Data. This Usage Data may include information such as your computers Internet Protocol address e.g.

IP address, browser type, browser version, the pages of our Service that you visit, the time and date of your visit, the time spent on those pages, unique device identifiers and other diagnostic data. **Location Data.** We may use and store information about your location if you give us permission to do so "Location Data". We use this data to provide features of our Service, to improve and customise our Service. You can enable or disable location services when you use our Service at any time by way of your device settings. We use cookies and similar tracking technologies to track the activity on our Service and we hold certain information. Cookies are files with a small amount of data which may include an anonymous unique identifier. Cookies are sent to your browser from a website and stored on your device. Other tracking technologies are also used such as beacons, tags and scripts to collect and track information and to improve and analyse our Service. You can instruct your browser to refuse all cookies or to indicate when a cookie is being sent. However, if you do not accept cookies, you may not be able to use some portions of our Service. Examples of Cookies we use **Use of Data.** California Ebike, LLC uses the collected data for various purposes **Legal Basis for Processing Personal Data under the General Data Protection Regulation GDPR.** If you are from the European Economic Area EEA, California Ebike, LLC legal basis for collecting and using the personal information described in this Privacy Policy depends on the Personal Data we collect and the specific context in which we collect it. California Ebike, LLC may process your Personal Data because **Retention of Data.** California Ebike, LLC will retain your Personal Data only for as long as is

necessary for the purposes set out in this Privacy Policy.

We will retain and use your Personal Data to the extent necessary to comply with our legal obligations for example, if we are required to retain your data to comply with applicable laws, resolve disputes and enforce our legal agreements and policies. California Ebike,LLC will also retain Usage Data for internal analysis purposes. Usage Data is generally retained for a shorter period of time, except when this data is used to strengthen the security or to improve the functionality of our Service, or we are legally obligated to retain this data for longer periods. Transfer of Data. Your information, including Personal Data, may be transferred to — and maintained on — computers located outside of your state, province, country or other governmental jurisdiction where the data protection laws may differ from those of your jurisdiction. If you are located outside United States and choose to provide information to us, please note that we transfer the data, including Personal Data, to United States and process it there. Your consent to this Privacy Policy followed by your submission of such information represents your agreement to that transfer. California Ebike,LLC will take all the steps reasonably necessary to ensure that your data is treated securely and in accordance with this Privacy Policy and no transfer of your Personal Data will take place to an organisation or a country unless there are adequate controls in place including the security of your data and other personal information. Disclosure of Data. Business Transaction. If California Ebike,LLC is involved in a merger, acquisition or asset sale, your Personal Data may be transferred. We will provide notice before your Personal Data is transferred and becomes subject to a different Privacy Policy. Disclosure for Law Enforcement. Under certain circumstances, California Ebike,LLC may be required to disclose your Personal Data if required to do so by law or in response to valid requests by public authorities e.g.

a court or a government agency. Legal Requirements. California Ebike,LLC may disclose your Personal Data in the good faith belief that such action is necessary to Security of Data. The security of your data is important to us but remember that no method of transmission over the Internet or method of electronic storage is 100% secure. While we strive to use commercially acceptable means to protect your Personal Data, we cannot guarantee its absolute security. Do Not Track is a preference you can set in your web browser to inform websites that you do not want to be tracked. You can enable or disable Do Not Track by visiting the Preferences or Settings page of your web browser. Your Data Protection Rights under the General Data Protection Regulation GDPR. If you are a resident of the European Economic Area EEA, you have certain data protection rights. California Ebike,LLC aims to take reasonable steps to allow you to correct, amend, delete or limit the use of your Personal Data. If you wish to be informed about what Personal Data we hold about you and if you want it to be removed from our systems, please contact us. In certain circumstances, you have the following data protection rights Whenever made possible, you can access, update or request deletion of your Personal Data directly within your account settings section. If you are unable to perform these actions yourself, please contact us to assist you. You have the right to have your information rectified if that information is inaccurate or incomplete. You have the right to object to our processing of your Personal Data. You have the right to request that we restrict the processing of your personal information. You have the right to be provided with a copy of the information we have on you in a structured, machine-readable and commonly used format. You also have the right to withdraw your consent at any time where California Ebike,LLC relied on your consent to process your personal information.

Please note that we may ask you to verify your identity before responding to such requests. You have the right to complain to a Data Protection Authority about our collection and use of your Personal Data. For more information, please contact your local data protection authority in the European Economic Area EEA. Service Providers. These third parties have access to your Personal Data only to perform these tasks on our behalf and are obligated not to disclose or use it for any other

purpose. Analytics. We may use thirdparty Service Providers to monitor and analyse the use of our Service. Google Analytics is a web analytics service offered by Google that tracks and reports website traffic. Google uses the data collected to track and monitor the use of our Service. This data is shared with other Google services. Google may use the collected data to contextualise and personalise the ads of its own advertising network. You can optout of having made your activity on the Service available to Google Analytics by installing the Google Analytics optout browser addon. The addon prevents the Google Analytics JavaScript ga.js, analytics.js and dc.js from sharing information with Google Analytics about visits activity. Payments. In that case, we use thirdparty services for payment processing e.g. payment processors. We will not store or collect your payment card details. That information is provided directly to our thirdparty payment processors whose use of your personal information is governed by their Privacy Policy. These payment processors adhere to the standards set by PCIDSS as managed by the PCI Security Standards Council, which is a joint effort of brands like Visa, MasterCard, American. Express and Discover. PCIDSS requirements help ensure the secure handling of payment information. The payment processors we work with are Their Privacy Policy can be viewed at. Links to Other Sites. Our Service may contain links to other sites that are not operated by us.

If you click a third party link, you will be directed to that third partys site. We strongly advise you to review the Privacy Policy of every site you visit. We have no control over and assume no responsibility for the content, privacy policies or practices of any third party sites or services.

Childrens Privacy. We do not knowingly collect personally identifiable information from anyone under the age of 18. If you are a parent or guardian and you are aware that your Child has provided us with Personal Data, please contact us. If we become aware that we have collected Personal Data from children without verification of parental consent, we take steps to remove that information from our servers. Changes to This Privacy Policy. We may update our Privacy Policy from time to time. We will notify you of any changes by posting the new Privacy Policy on this page. You are advised to review this Privacy Policy periodically for any changes. Changes to this Privacy Policy are effective when they are posted on this page. Contact Us. If you have any questions about this Privacy Policy, please contact us Others will be hidden. Drag and drop to rearrange the order. For a better experience, please enable JavaScript in your browser before proceeding. It may not display this or other websites correctly. You should upgrade or use an alternative browser. I cannot find how to set the wheel dimension on the thing. The documentation I found online says that I can enter a settings menu by double press on the power button. This does nothing but if I press the plus and minus buttons together I get to some kind of settings menu but not the same one as in the manual. What does it set bL back light I presume S7 sets km or mph OFF auto time off. So nothing to do with wheel diameter. I am also expecting speed limit, password, and voltage settings but cannot find these either. Any idea how to get access to these settings.

Or do I need a usb cable or something Definitely works on my 3 button switch Scroll to chapter 9 for details on how to enter password protected settings. Wheel diameter parameter is within these settings Leave it a few seconds and the trip counter will reset itself. This will only reset the trip counter, not the total mileage counter! By continuing to use this site, you are consenting to our use of cookies. The display shows the most important information about driving, and allows you to adjust the system. The display includes control buttons, which control the entire central drive. Another function of the buttons is the ability to program and set up your display and system.
